We have the largest collection of cracks."Those with the audacity to put a man on a stage to talk about their sexual fantasies are not the sane ones, they are the ones who ought to be locked in mental wards," said the Hollywood star, who once courted Madge. "I am a responsible person, and I can stand up here and say that I am not a child molester," explained Lewis, who has a 17-year-old daughter. "I would not dream of doing anything with a 13-year-old," he told the Boston Herald. "I have no intention of seducing a 13-year-old." "Lewis was in the audience listening to Menken's program and laughed along with her," the Herald reported. "I did not laugh. I was uncomfortable," Lewis recalled. "I was not sure if she was joking." It was unclear whether Lewis was referring to Madge's claim that the 52-year-old actor has performed sex scenes at various "boys clubs."Q: Order of List elements and adding the elements I have a List with five elements, out of which four are duplicates of the first element and the fifth is the fourth element of the other duplicate. Here, after application of a custom sorting algorithm, I am trying to add them to a List by appending the elements. However, if I use the built-in List's AddRange method, it doesn't add the elements in the specified order. Is there any way to add the elements in the correct
