BlueBox Bar [Mac/Win]

-Browsers- Chrome, Firefox, Internet Explorer and Safari are the default browsers. You can see the major differences from each other. -Profiles- Chrome has a default profile, but it can be deleted. Firefox and Safari have no default profile, but you can have one (options). -Search- Search bar. BlueBox bar will autocomplete search queries as you type. -Date / Time -The button will show the date and time on the selected device -Navigation- Your current location. Can be disabled if you want. If you want to set your location, just press the button. -Favorites - If you want to add a website as a favorite, just press and hold it. -Sign Out - Press the button to log out. -Watch out - BlueBox bar will show where is the danger. -Hot - Shows where it is the hot button, for example, you can see the last website where you visited. -Bookmarks - To view the favorite websites, press and hold. -Help - There is no help. -About - BlueBox bar shows how it works. -Quit - BlueBox bar will close. I added an option to delete the default Firefox profile. If you want to use a profile in Firefox, set it as default, and set a custom location (somewhere in your hard drive) to the Firefox' directory. Then, you can add your custom location to Firefox' list of profiles to use when you want. Don't forget to set the directory of your custom profile to the default profile. You can find the config file (ff_profile_list) in [your-folder-name]/firefox/ Help me to improve the BlueBox bar if you want. Thank you! SMS Password Disabler is a freeware and safe application that will remove your SMS password and will provide you a real-time privacy by removing all the text messages from the device. This is a permanent solution. So, once you start it, you will never forget your SMS password. And because of this application, you can free yourself from the manipulation of others. To activate this application, you should simply follow this two steps: 1. Install the application 2. Go to Advanced Settings > SMS Password Disabler and choose "Start Now". It's very easy to use this application. Select and crop an image from
