**System Requirements For Faling Ice:**

Mac OS 10.5 or later Windows 2000 or later CPU: The game runs smoothly on most systems. The game requires a Pentium III, Athlon XP, Sempron, or equivalent processor. NOTE: The game is designed to be compatible with the hardware of the original Xbox. However, as the Xbox is limited to 512 MB of RAM, the game may suffer from RAM shortages if a large number of textures are used. It is recommended that 512 MB of RAM or more is installed on the
