MILKDROP - the first software for multiple players - combines the features of different software for your discs. View larger image and more specs Handy Tray-based software to organize discs and titles/artists/songwriters View larger image and more specs I use it for keeping track of my collection, but it's great for organizing other discs/songs/artists/etc as well. I don't have a ton of discs, but I still use it a lot to keep it simple. I've been using it for a while now, and I like it, although I will need to add more functionality to it to make it better. It's not super complex, and it's very basic. It has a "plastic" feel to it that I don't like, but I can live with it. It's great if you just need an easy way to keep track of the discs in your collection. Description: Able2Play Manager is a smart and helpful solution to organize your discs, magazines, videos and more in a neat way. Able2Play can help you manage your discs, magazines and videos in a very handy way. Many thanks to the developers for continuing to refine the program to make it better and easier to use. View larger image and more specs I use it as my primary CD and DVD manager. It works well for organizing your disc collection, and it even includes a bit for DVDs that I don't have a use for. It's a good program to keep organized, so I use it all the time. Installation: Setup was a piece of cake - the program runs from the start menu. View larger image and more specs The program has one big drawback. It doesn't help you keep track of your songs and artists, and it's a big shortcoming of the program. If you're interested in it, you can download the free version. Description: Checker Plus Pro is a handy utility to keep track of your CD Collection, DVD Collection, and most of the other discs/songs/artists/etc that you have. It sports a clean and intuitive interface. Thanks to the developers for the continued improvements to the program and for all of the features. The program is a little advanced for me, so I don't use it very often, but it does what it's supposed to do. I
