Please do not complain about any bugs, not reporting them would be appreciated. Activation of colony-stimulating factor (CSF) receptors in guinea-pig macrophages. II. Effects of CSF-1 receptor antibodies on CSF-1-dependent colony formation. Guinea-pig bone marrow macrophages were found to respond to colony-stimulating factor-1 (CSF-1) by a burst of DNA synthesis. This response can be detected in a Coulter counter, and is more rapid and more intense than the stimulation of 3H-thymidine incorporation. The effects of neutralizing CSF-1-receptor antibodies were studied in this system. The antibodies inhibited the induction of a second peak of DNA synthesis in response to CSF-1 after a 4-h exposure to 10% CSF-1. This treatment also induced a dramatic decrease in the cell number in cultures of bone marrow macrophage precursors. The antibodies alone were inhibitory, but less so than for CSF-1. The effects of the antibodies on CSF-1-dependent colony formation in vitro were not totally inhibitory, but they could be used to show that, as in other systems, CSF-1-induced proliferation was markedly reduced by antibodies to the

## What's New in the?

Music Menu is an affordable and easy-to-use DOS application that plays a library of 190 songs. The graphical interface provides easy navigation through the songs. The GUI contains 2 modes, the Song mode and the Lyrics mode. The songs are sorted according to their media files. In the Song mode, different play options can be selected. In the Lyrics mode the lyrics of the selected song are displayed. The user can select (copy/paste) any song into the Lyrics window. By pressing next, the first line of the song is displayed in the Lyrics window. If an external file is connected, lyrics will be transferred from this external file. It can be used for the following situations: - Beginning Lyrics Training - Accompanying the songs in a screening project - Going to concerts, listening to the radio or browsing the internet. Features of Music Menu: - 190 songs (160 radio songs, 15 MPEGS from the internet). - Various tempo selections (50, 75, 100, 120,...) - In the GUI, it is possible to choose the program to load the song. "Song mode" sets the tempo automatically and plays the song as intended. The same song can be played in different modes to make use of the different options (e.g. pause, repeat, fastforward, rewind,...) - In the GUI it is possible to change the tempo, press pause, choose a mode (Song mode, Lyrics mode,...) and double-click a song to play/pause it. The songs can be dragged out of the main window into the Lyrics window. - It is possible to print the lyrics after selecting the desired song. - Lyrics can be pasted into external files or copied from external files. If external files are connected, the lyrics will be sent to the chosen file. - It is possible to choose between English, German or Spanish. The lyrics will be translated automatically. - There is a help section with basic functions and instructions. - Command-Z aborts the program immediately. - In the Lyrics window, the GUI-segment in the status-line will display the song's ID and the line of lyrics. - The application has been tested with DOS 6.0 and DOS 6.22. If you want an application which looks more modern, you should check out Vegas or MediaPlayer Classic. Detailed descriptions of the functions are available in the
