Installing the freeware @prompt Office Translator enables us to create and translate a MS Word document with just a few steps. To create a new document: 1. Launch @prompt Office Translator; 2. From the File menu, choose New to create a new document. Type the name of the new document on the Windows Open dialogue box; 3. Choose the format from the drop-down menu; 4. Click Open; 5. The newly created document will open.

At the bottom-right part of the window is an icon for opening the settings for the new document; 6. To start the translation process, click on the Settings button. The Translator settings window opens. To translate a document: 1. Open a document from your computer or from the Internet; 2. Click on the Translation icon on the top right of the window. The settings window opens; 3. Choose 'Translate to' (for example, French) from the drop-down menu; 4. Choose the language to be translated from the list. If required, select 'Translate to' for the language you choose. If a document is in different languages, choose each language you wish to translate to; 5. Leave the fields empty if you need to update the target language; 6. Click OK. 7. After the translation has been completed, the word count is displayed at the top of the window. Click 'Check Translation' to see the newly translated document; 8. Click on Save to close the settings window and store the translation. Click on the 'Open' button.
