You're different from the rest of the battle bears. Everybody knows that, but just what does it mean? You're the only one that doesn't need to turn... Vegas Zombies is a first-person shooter/Adventure game that pays homage to classic zombie games of the 80s (Sid Meiers' 'Psycho' for example). You are part of the security team of a casino and the monster surge is threatening to break out. You must survive the onslaught until it is safe to return to your post and defend the casino! Players have the option of either shooting the zombies in the face... or making them fart in their faces. Vegas Zombies features our new innovative multiplayer mode inspired by those classic 16-bit era games, except that players now have the option of Tapping instead of shooting. If you're looking for a fast paced and brutal version of the classic 'Zombie Rampage' game - this is the one for you. Plus with a huge arsenal of weapons at your disposal, all of which make funny noises when you shoot 'em dead, you might just find yourself in control of the monsters. The world's prettiest fire-breathing dragon is coming to your city! "Dragon Booster" is a Dragon Quest-style RPG with a modern twist. The protagonist is a young boy who happens to be a descendant of a legendary fire dragon, and while traveling through the land he encounters other dragons and befriends them. He eventually learns how to use his dragon-like powers to fight monsters and become a great hero! "Dragon Booster" features gorgeous, hand-drawn 2D animations, the largest playable character roster in the series to date, and new gameplay mechanics like "Berserk Mode". Queen Elizabeth II: Mary was the original owner of the fancy place above the gates, but her son Jason inherited the business. Only Mary knows what really happened to her brother, and Jason really should have known - but the rule of the game is to play by the rules. So Jason keeps the rules, but some things just don't add up. Jason is in a spot of bother and Mary is likely to lose her brain. She's got to find a way to clear her brother's name before it's too late! Dragon Quest Monsters comes to the Square Enix Collective for a limited period of time. The core elements of the classic "Dragon Quest" franchise come to life in this remake of the '80s NES

Cosmos Corp has declared war on humanity. The Earth Defence Force consists of four branches: Tactical, Assault, Support and Medical. These four branches provide defense for Earth in the final battle against the evil mega corporation. You play as R, a young member of the Tactical Division, with a small crew of pilots. Together, your team must face many battles to save the Earth. But what can you do as the best fighter in the fleet? Can the Space Marines save the day?

Sodium dodecyl sulfate-polyacrylamide gel electrophoresis for separating nucleic acids isolated from formalin-fixed, paraffin-embedded tissue sections. Sodium dodecyl sulfate-polyacrylamide gel electrophoresis (SDS-PAGE) is used to characterize nucleic acid preparations derived from unfixed formalin-fixed, paraffin-embedded tissue sections. The RNA present in these preparations appears to be conserved with respect to RNA prepared from unfixed cryosections and unfixed frozen tissue sections. DNA appears to be present but it is degraded. The results of SDS-PAGE analysis of DNA and RNA prepared from formalin-fixed, paraffin-embedded tissue sections correlate well with results obtained using RNase and DNase treatment of unfixed formalin-fixed, paraffin-embedded tissue sections. Although there is loss of DNA with formalin fixation, the amount of DNA present may be sufficient to determine the presence of malignant or abnormal tissue.

North-west wind disperses oil, but it's not over yet. By 2020, 4,000 people are set to earn a living from the sea. Just eight years ago, there were only a few boats on the Sanmin river, along the east coast of Vietnam's northernmost province. Their primary function was to transport Vietnamese rice to the sea, but increasingly they are now used to harvest squid and fish. "The fishermen go further out to sea, beyond the channels, and also go deeper. The squid can be found near the bottom of the ocean and the fish in the mid-water zone, where it is warmer," said fisherman Nguyen Xuan Chien, a member of the local fisheries management committee in Lao Cai City, which is one of the largest fishing areas along the coast. The Lao Cai coast is so notorious for the pollution of its water that it has been identified by the World Bank as
