Enjoy the entire set of features needed to quickly and easily create, share and interact with your designs. AutoCAD, Fusion 360 and the Autodesk Exchange app market were launched as part of the purchase of Autodesk by a group of investors led by Carl Icahn. Following the acquisition, Autodesk spun off the products to shareholders. History AutoCAD was originally developed by MicroProse for the Apple Macintosh, and later ported to Microsoft Windows. In 1988, a Unix version of AutoCAD was introduced. In 1991, a version for the DOS operating system was introduced. On October 31, 1997, after years of licensing AutoCAD to third parties, a US government lawsuit regarding the patent infringement of certain algorithms by AutoCAD's predecessors, MicroProse and Micrografx, was settled out of court. MicroProse had been acquired by Micrografx in late 1995, and by early 1996 MicroProse had acquired most of the assets of Micrografx, including its AutoCAD line of software products. Between 1998 and 2004, the software changed hands several more times and was acquired by various parties, including Hindustan Unilever, Siemens PLM Software, and Software AG. AutoCAD LT On December 31, 2004, AutoCAD LT, the last remaining version of AutoCAD (before the switch to Autodesk), was discontinued. In 2011 ca3bfb1094
