Automatic Subtitle Synchronizer Crack+ Download [2022-Latest]

Automatic Subtitle Synchronizer is a lightweight Windows application built specifically for helping you synchronize the subtitles for video files. It sports a clean and simple GUI that gives users the possibility to add files to the list using the built-in browse function, so you cannot rely on the “drag and drop” support. Automatic Subtitle Synchronizer offers support for a wide range of file formats, namely AVI, ASF, FLV, MKV, MP4, WMV, MPG, MP3, WAV, or MOV. When it comes to uploading subtitles to the list, the application allows users to insert only files with SRT format. Basically, it proves to be easy to work with this tool, as you only need to upload the files and the application automatically synchronizes the subtitles with the video files. Since there aren’t any configuration settings, even less experienced users can master the process with just a few clicks. During our testing, we have noticed that Automatic Subtitle Synchronizer carries out a task quickly, and no errors showed up throughout the entire process. As it would be expected from such a small software utility, it remains light on the system resources, so it doesn’t hamper computer performance, nor interfere with other programs’ functionality. To sum things up, Automatic Subtitle Synchronizer makes the synchronization process seem nothing but a child’s play. It can be easily configured and installed by all types of users, regardless of their experience level. 08/01/2020 | Automatic Subtitle Synchronizer is a lightweight Windows application built specifically for helping you synchronize the subtitles for video files.
