A story between the myth and the reality: in this game you play a polygonal character. You are a Christian follower of a fictional cult. Your life is a perfect imitation of a common christian, but some things are missing. This game does not stand alone: The story will continue. Inception A second chance in life Introduction Welcome to the world of five hundred years before Jesus, when paganism dominated the world. The world was divided between those that believed in the gods and those that followed other teachings, while many others were left to a life of poverty. There were some gods that were officially worshiped by only one of the two parties and some were worshipped by all of them, although a lot of the common people didn't know much about them. The Christian teachings were spreading at that time and slowly, but steadily, people were starting to accept the teachings and they became more and more important every year. To give more influence to the new born religion, the priests started to follow a strict rule of conduct: if a follower of paganism changed his ways, he could be considered a christian once again, as long as he paid some godly tribute: his son, his daughter, or his whole family would be put to death. At that time the ways of the old gods were still practiced by the pagans, while the Christians were forbidden to worship anything other than God, but some pagans were becoming christian again, although just one or two of their family members. Christianity is the most modern and advanced form of faith at the time. The church is booming, the temple is full of christian cultists who just want to have some time in peace after the long days of worship. The Christians are purifying the world of paganism and there is no longer any need to worship or obey pagan gods. Some pagans are still unwilling to return to their old ways, but this is not to say that no one ever will, there are just not many converts. You are the best possible Christian you can be: you will be able to follow the rules, visit the temple and start a new life, a life like you always wanted. Why you want to become a christian? This game is based on the teachings of the christian church: so there is no "why do you want to be a christian" at the end. This game is just your chance to become a better person, to change your
