"The website was easy to navigate, and navigation was intuitively simple, I could figure out the exercises on my own. The program was designed very well I absolutely like it. I will definitely use it again." "Your instructor'[s] instructions were clear and easy to follow... I enjoyed how clear the instructions were. This should really be a great matlab learning resource." "I'm in the graduate level and have been using MATLAB for some time now. Your course did an excellent job of breaking the material down in just the right way." "The instructor and assistant instructor were very patient and kind. He proved to be a very nice instructor." "The course I took in for my degree in engineering and i felt that it was extremely helpful in both understanding the theory behind each equation in math as well as learning how to program it in MATLAB!"
