Startek FM distributor for India, Biometrics and Finger print solution provider. Manual for Android (Startek FM220 â€" ACPL), DOWNLOAD.$150K donation taps into network of business donors A successful shot at fundraising for the school district of Vernon Hills, Ill., has tapped into the network of businesses that do work for the school district and other organizations. A Midwest achievement fund philanthropic campaign was undertaken in late summer, to raise $150,000 and support the school's library. Michelle Schauss, the district's chief financial officer, originally sought assistance in the fund-raising effort from area businesses. But when the Cincinnati-based Simmons-Nicoletti Alliance approached her, one of their first questions was, "What can we do for the school?" Schauss says. The Simmons-Nicoletti Alliance, which claims to be the world's largest business philanthropy network, has 10,000 member companies and 1200 volunteer leaders who donate time, treasure and talent to help needy organizations. Simmons-Nicoletti, for instance, raised $1.9 million for the Cincinnati Bengals in the 2006 season, and helped that team raise $75,000 by collecting $100 tickets for 10 games. Simmons-Nicoletti is a member of the Business Leaders in Philanthropy, a national organization that works with 20,000 members on more than 20 causes. Schauss says, "We were invited by B.L.P. to join the alliance and help get this campaign off the ground." Simmons-Nicoletti developed a campaign called Help Me At School, and it was designed to support the district's library. Local foundations funded the fundraising effort, including the Dearborn Community Foundation, the John T. Yost Foundation and

The aim of this study was to investigate the pharmacokinetics, metabolism and excretion of cannabidiol (CBD), H-CBD, 11-hydroxy-Δ9-tetrahydrocannabinol (H-THC), H-11-OH-Δ9-THC and H-CBD-11-OH in healthy volunteers. Ten healthy male volunteers were administered a single oral dose of 300 mg THC and 300 mg CBD in a crossover-design. Plasma and urine were analyzed using LC-MS/MS and SPE-based extraction methods, respectively. Data were analysed based on non-compartmental methods. The mean half-life values for CBD, H-CBD, H-THC, H-11-OH-Δ9-THC and H-CBD-11-OH were 2.58 ± 0.34, 2.65 ± 0.53, 2.16 ± 0.33, 5.29 ± 1.36 and 4.79 ± 1.83 hours, respectively. The mean apparent oral clearance (CL/F) values for CBD, H-CBD, H-THC, H-11-OH-Δ9-THC and H-CBD-11-OH were 28.7 ± 9.9, 19.3 ± 6.4, 28.8 ± 9.1, 29.3 ± 5.1 and 39.9 ± 9.3 L/h/kg, respectively. The mean apparent oral clearance values for the study compounds (H-THC and H-11-OH-Δ9-THC) were similar to those previously
