Nuvvostanante Nenoddantana Full Movie In Hindi Dubbed 28

What happens in the final part is that the daughter and father are able to "hear" each other. The other aspect is that his sister loves and treats him very differently as if he was her own brother and not just her sister's brother. And if he ever dies, she will feel the loss even more. What I love about this story though is that it is not some "Once Upon a Time" where we are told what to do and how to feel. "Once Upon a Time" would be just like this short story if she killed herself in the end. So now we do NOT know what happens in the final part. There is no good end. There is no happy ending.
