your faction is the bastion liberation front and you are here to free panau. there are four factions and each faction has its own unique faction missions, which are quite difficult and require the use of many different skills to complete. you must blow up the infrastructure in panau, and you must use all of the available weapons to do so. this game is a very fun and extremely addictive sandbox game. you need to have a lot of patience to get to the end of the game. the weapon and vehicle system is excellent and the game is very well-made. the graphics are sharp and the controls are great. the game is very similar to grand theft auto v, but it's a sandbox game. you can blow up buildings and kill people with your hands. you can drive a tank around and blow up other vehicles.
