Dekart Private Disk 2.10 Full 26 Fix

Jetico's File and Folder Encryption extension can be added to create a strong line of defense against cyber criminals and nosy IT professionals. Its progressive hash-based strong key encryption and hashing algorithms render data meaningless and incapable of accessibility, no matter how much they are examined and revised. Its effective web-based central management console permits you to remotely manage all encrypted information, enhance firewall rules, and associate the program to specific directories or new folders with a simple click. This provides full assurance that no intruder will be able to get access to the information and that it is encrypted according to the most advanced security standards. It can centrally protect all of your information with powerful access controls to ensure that no one can get to it without your approval. Keep your private information secure and prevent it from falling in the wrong hands with strong file encryption. The Jetico File and Folder Encryption extension provides high-strength 256-bit encryption algorithms to encrypt your files and folders. To make it even more secure, the encryption algorithms are stored on remote servers and transported over a secured connection. If anyone ever tries to get access to your files, they will be completely meaningless and inaccessible. Alignkey is a leading file encryption software for system encryption, container file encryption, and archive file encryption. It supports massive files of up to 70GB. Alignkey can protect a variety of data and it is capable of preserving the integrity of secure information. Alignkey supports a variety of platforms including Windows XP, Vista, 7, 8, and 10. You can select a series of encryption algorithms to determine the level of security for each individual file or folder. Alignkey offers a unique On-Demand mode that encrypts files on the fly and it can also encrypt virtual disks. Alignkey protects all your confidential data and you can access it when required. It can protect up to 10000 files or folders and the amount of data can be modified to up to 100TB.
