"we're thrilled to join the leap motion family and to be the first to bring our signature dance-pop to the motion-based platform," said lead singer, tom colicchio. "leap motion gives us a chance to fuse technology and art in a unique way, and we're excited to see how sugar rush will further our mission of spreading faith, trust, and pixie dust." sugar rush is the first game of its kind, combining cutting-edge motion control technology with a fun and challenging racing game to create a unique and engaging gaming experience. sugar rush is designed for leap motion users who want to experience the excitement of arcade racing without the hassle of a game pad. after picking out your candy, players set out on a race to see who can get to the finish line first. to make matters more interesting, when sugar rush is played, a completely different set of sounds are played depending on the type of candy you choose. to race on the sugar rush speedway, players will need to use their hands to control the direction of their cart, and use their fingers to make swiping motions on the racing track. sugar rush is also the first game to include a soundtrack that is designed to complement the game's unique motion control and control scheme. sugar rush will be available in the airspace store for leap motion in november 2016. descargar el juego con el rey candy incluido lo siento, en sugar rush superraceway, este personaje no est incluido. adems, aunque hubiese hecho otra actualizacin con este incluido, al estar vanellope en el juego, me temo que la cronologa de este juego se encuentra entre despues de la primera pelcula y antes de la secuela (wifiralph). motivo de que no est incluido.
